

Hosted by members of Click 4 Action eRotary,
we would like to invite you to a **FREE Autism Awareness Workshop**

**On Saturday 29th March 2014,
9.30am-3.30pm
at Uplands School, Swindon**

Autism Awareness:
Working with Autism
Understanding, Opportunities, & Enterprise

Living with autism can make your world very different.

If others don't understand the puzzle of autism, it can lead to very daunting experiences.

Building on last year's workshop we intend to explore autism in more depth and develop pathways to vocational opportunities.

Our workshop aims to help understand and explore options to help bring about a more inclusive society.

Packed lunches on sale from The Uplands Shop

Rotarian Janice Mason, President of Click 4 Action eRotary, says: *"Last year's workshop was very successful and made us aware of how often we all have contact with people with autism. It made us realise how we can adjust our own behaviour, communication and processes to be clear and to be more 'autism friendly'. From my own professional experience I am aware that making some simple changes makes the world of difference. This year's workshop is open to anyone who wants to understand more about autism, by continuing to raise awareness, especially within the workplace, the more we can build respect and inclusion."*
